SUPER NODES

ATM SUPER NODES SCHEME

AI Trading Master
of The New Era

Web3.0 AI
Trading Solution

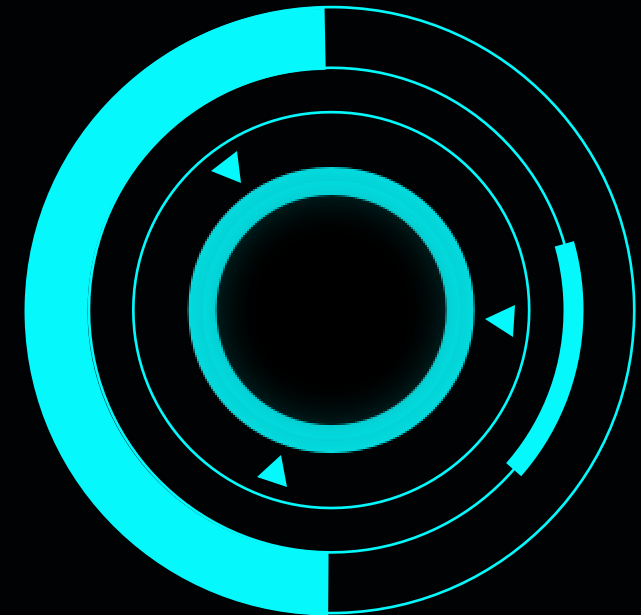

New Crypto's
World ATM

AITM SUPER NODES

Super Nodes Recruitment: Limited to 210 globally

Node-exclusive rights: Receive 20,000 AABTC (released evenly over 300 days)

Amount	Subscription Amount	Receive AABTC	Rights
1 - 3 9	\$2,000	20,000	✓ Receive a V5 level, enjoy a daily team rewards of 50%
4 0 - 2 1 0	\$3,000	20,000	✓ Enjoy 5% weighted bonus of the daily static income produced by the platform

SUPER NODES VALUE

01.

Obtain membership in the AABTC Global Node Committee

02.

Obtain the qualification for the 'AI Startup Camp', and those who qualify will enter the 'Wealthy Club'

03.

Outstanding individuals can enter ABA (Ark Brothers Alliance)

PART TWO

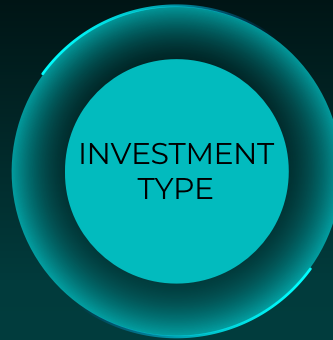

INVESTMENT MECHANISM

AITM INVESTMENT MECHANISM

Starting from \$300
In multiples of \$100

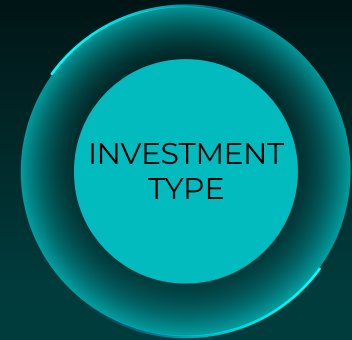

Daily Interest Rate
0.5% - 1.0%

AABTC Entry

Static Income
Dynamic Income

Exit at 3 times

USDT Entry

Static Income

Only available to those
who have the AABTC
investment package.

Regulations:

1. All withdrawal requests will be processed and credited on the next Monday following the application date.
2. A 10% handling fee is required for withdrawals; an equivalent amount of AABTC will be deducted according to the gold standard. If the AABTC balance is insufficient, the withdrawal request cannot be completed.
3. USDT packages do not participate in any team performance evaluations or bonus calculations.

INVESTMENT MECHANISM EXAMPLE

Investment Type: AABTC Entry

When the static and dynamic total income of the AABTC investment package reaches three times the investment amount, this package will automatically exit.

Example

When User A invests \$5,000, they can obtain a limit that is three times the amount, which is $\$5,000 \times 3 = \$15,000$.

When User A's static and dynamic earnings reach \$15,000, they can withdraw a total of \$15,000.

Once the threefold limit is reached, the account will automatically be voided and will no longer generate any income; a new investment in AABTC is required to obtain a new round of earnings.

PART THREE

DIRECT REFERRAL REWARDS

DIRECT REFERRAL REWARDS

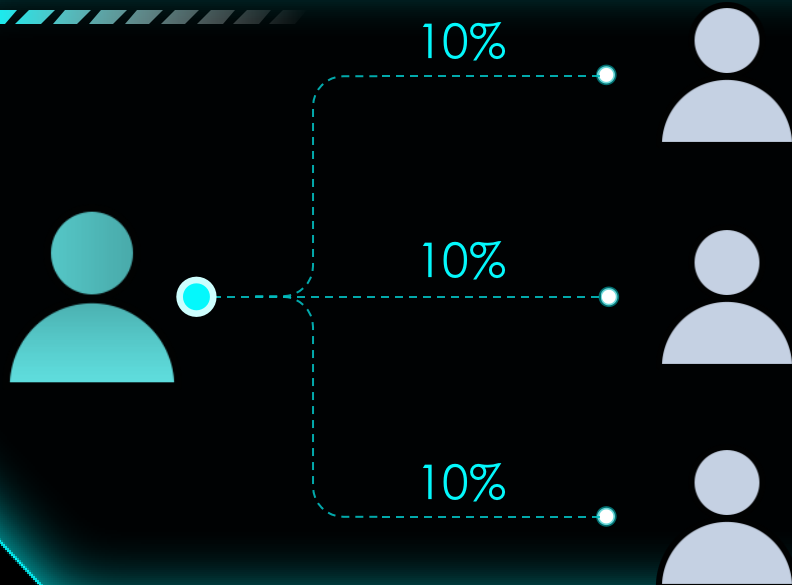

10%

Direct Referral Rewards

If a user invests in the AABTC package, the recommender will receive a direct referral bonus of 10% of the investment amount.

Notes:

- Each AABTC package only generates one direct referral rewards
- The direct referral rewards is applicable only to AABTC package users directly referring new AABTC package users

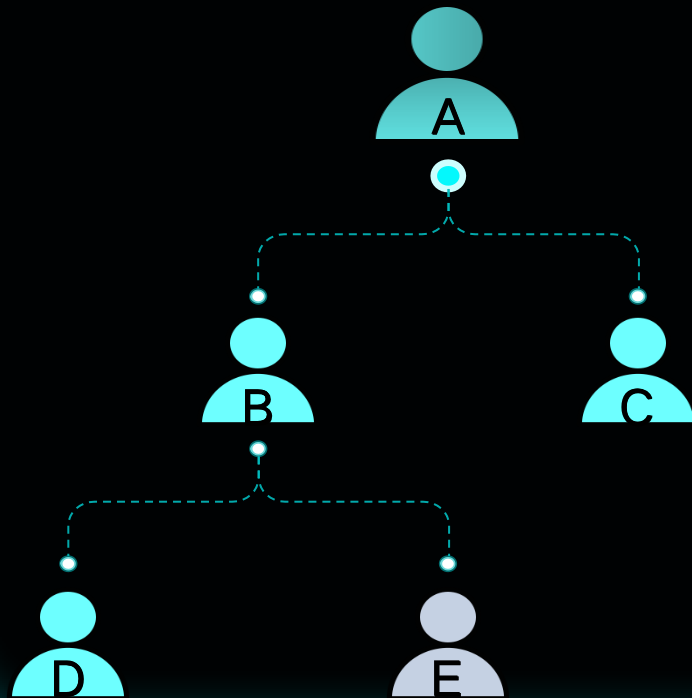

Example

User A directly refers User B to invest \$5,000, and the direct referral reward for User A is $\$5,000 \times 10\% = \500 .

If User A reinvests or increases the investment package, this will generate another direct referral reward."

DIRECT REFFERAL REWARDS 【DUAL-TRACK SYSTEM】

Direct referral rewards will be calculated for the actual bloodline referrer; team bonuses will be calculated based on the placement position and performance.

Example :

- Under the dual-track system, User A' s first generation can only contain two users. When User A directly refers a third user, User A can only choose to place them under the larger node. Therefore, when User A refers new User D, User D will be placed under User B.
- In this case, User A can receive direct referral rewards from directly referring Users B, C, and D. Meanwhile, User B can only receive direct referral rewards by directly referring User E.

PART FOUR

TEAM REWARDS

TEAM REWARDS

Investment	Small Nodes Perfomance	Rank	Rewards
\$300	\$3,000	V0	5%
\$1,000	\$10,000	V1	10%
\$3,000	\$30,000	V2	20%
\$5,000	\$50,000	V3	30%
\$7,000	\$70,000	V4	40%
\$9,000	\$90,000	V5	50%
\$11,000	\$110,000	V6	60%
\$13,000	\$130,000	V7	70%
\$15,000	\$150,000	V8	80%

TEAM REWARDS EXAMPLE

01

Users can be promoted by meeting either the individual investment amount or the small node performance criteria. However, for all level promotions, the individual investment must meet a minimum of 300U.

02

The team bonus calculation is based on the performance of small nodes and will deduct the performance part of the large nodes.

03

Team bonuses are distributed proportionally to the AABTC static income.

04

Team bonuses include unlimited generation rewards, with no cap and no withholding policy.

05

There is a maximum daily limit on team earnings, which depends on the static daily income of the team's small sector;

06

The account supports original point upgrades. After tripling out, investors can choose an investment plan smaller or larger than the original, but the corresponding level will also be reassessed.

TEAM REWARDS EXAMPLE

【Individual Investment Standards】

User A initially invests \$1,000, reaching level V1. If User A wishes to upgrade from V1 to V2, they must supplement the personal investment package by an additional \$2,000, to a total of \$3,000, to meet the upgrade standards for level V2.

Additionally, the person who recommended User A can once again enjoy a 10% referral reward on the difference.

Personal Initial Investment	Small Node Performance	Price Difference Compensation	Original Rank Upgrade	Rank
1,000	0	2,000	3,000	V2

【Team Performance Standards】

If User A's personal investment package (\$3,000) has been withdrawn, and at this time the team's minor node performance reaches \$30,000, they only need to reinvest \$300 to meet the minimum personal investment requirement to maintain the V2 level.

Personal Initial Investment	Small Node Performance	Reinvestment	Rank
0	30,000	300	V2
